PROFESSIONAL SUMMARY

Software Quality Engineer with hands-on experience supporting insurance-domain applications through manual, end-to-end, regression, UI, and functional testing. Java backend developer focused on Spring Boot, secure REST APIs, relational data, and testable application design. Seeking a Java Backend Developer role.

TECHNICAL SKILLS

Backend: Java 21, Spring Boot, Spring Security, REST APIs, JPA, Hibernate
Data & Security: PostgreSQL, SQL Server, SSMS, JWT, BCrypt, RBAC, database locking
Testing & Quality: JUnit, Mockito, Postman, ReadyAPI, Groovy scripting, Jira Zephyr
Practices: Agile, manual testing, E2E testing, regression testing, UI and functional testing

SELECTED PROJECT

ShopSphere | Java Backend Application GitHub: github.com/ajayeadara2001/shopsphere-backend

- Built and deployed a Java 21 and Spring Boot backend on Render; public deployment URL is not currently available.
- Implemented REST APIs using PostgreSQL, JPA, and Hibernate, with JWT authentication, Spring Security, BCrypt password hashing, and role-based access control.
- Developed order, payment, refund, and stock workflows; applied database locking to help protect data consistency during concurrent updates.
- Created JUnit and Mockito tests for the latest project version; all reported tests are passing.

PROFESSIONAL EXPERIENCE

Infosys Limited | Software Quality Engineer | Mar 2025 - Present | Bengaluru, Karnataka

- Support quality assurance for insurance-domain applications through manual, end-to-end, regression, UI, and functional testing.
- Use Postman, ReadyAPI with Groovy scripting, SQL Server Management Studio, and Jira Zephyr to validate services, data, and test execution.
- Work in Agile delivery teams to document testing activity, investigate defects, and contribute to timely quality outcomes.

EDUCATION AND CERTIFICATIONS

B.Tech, Civil Engineering | PACE Institute of Technology and Sciences | 2022
Certifications: Infosys Java SE8 Developer; Efficient Programming Skills Competent; Cloud Testing Professional; Global Agile

RECOGNITION

Infosys Insta Award, July 2026 - Recognized for rapid learning and independent, timely quality contributions to the PMI project.
